PORTFOLIO

Suspension - Saltation - Raptation

Material:
Mixed Media
Measures:
2700,0 x 350,0 x 300 cm
Year:
2021

Wippe - Experiment No.02c

Material:
Gas cylinder, gas hose, gas valves, teeter – totter, candle
Measures:
250,0 x 80,0 x 200,0 cm
Year:
2021

Der Ballon - Experiment No.03c

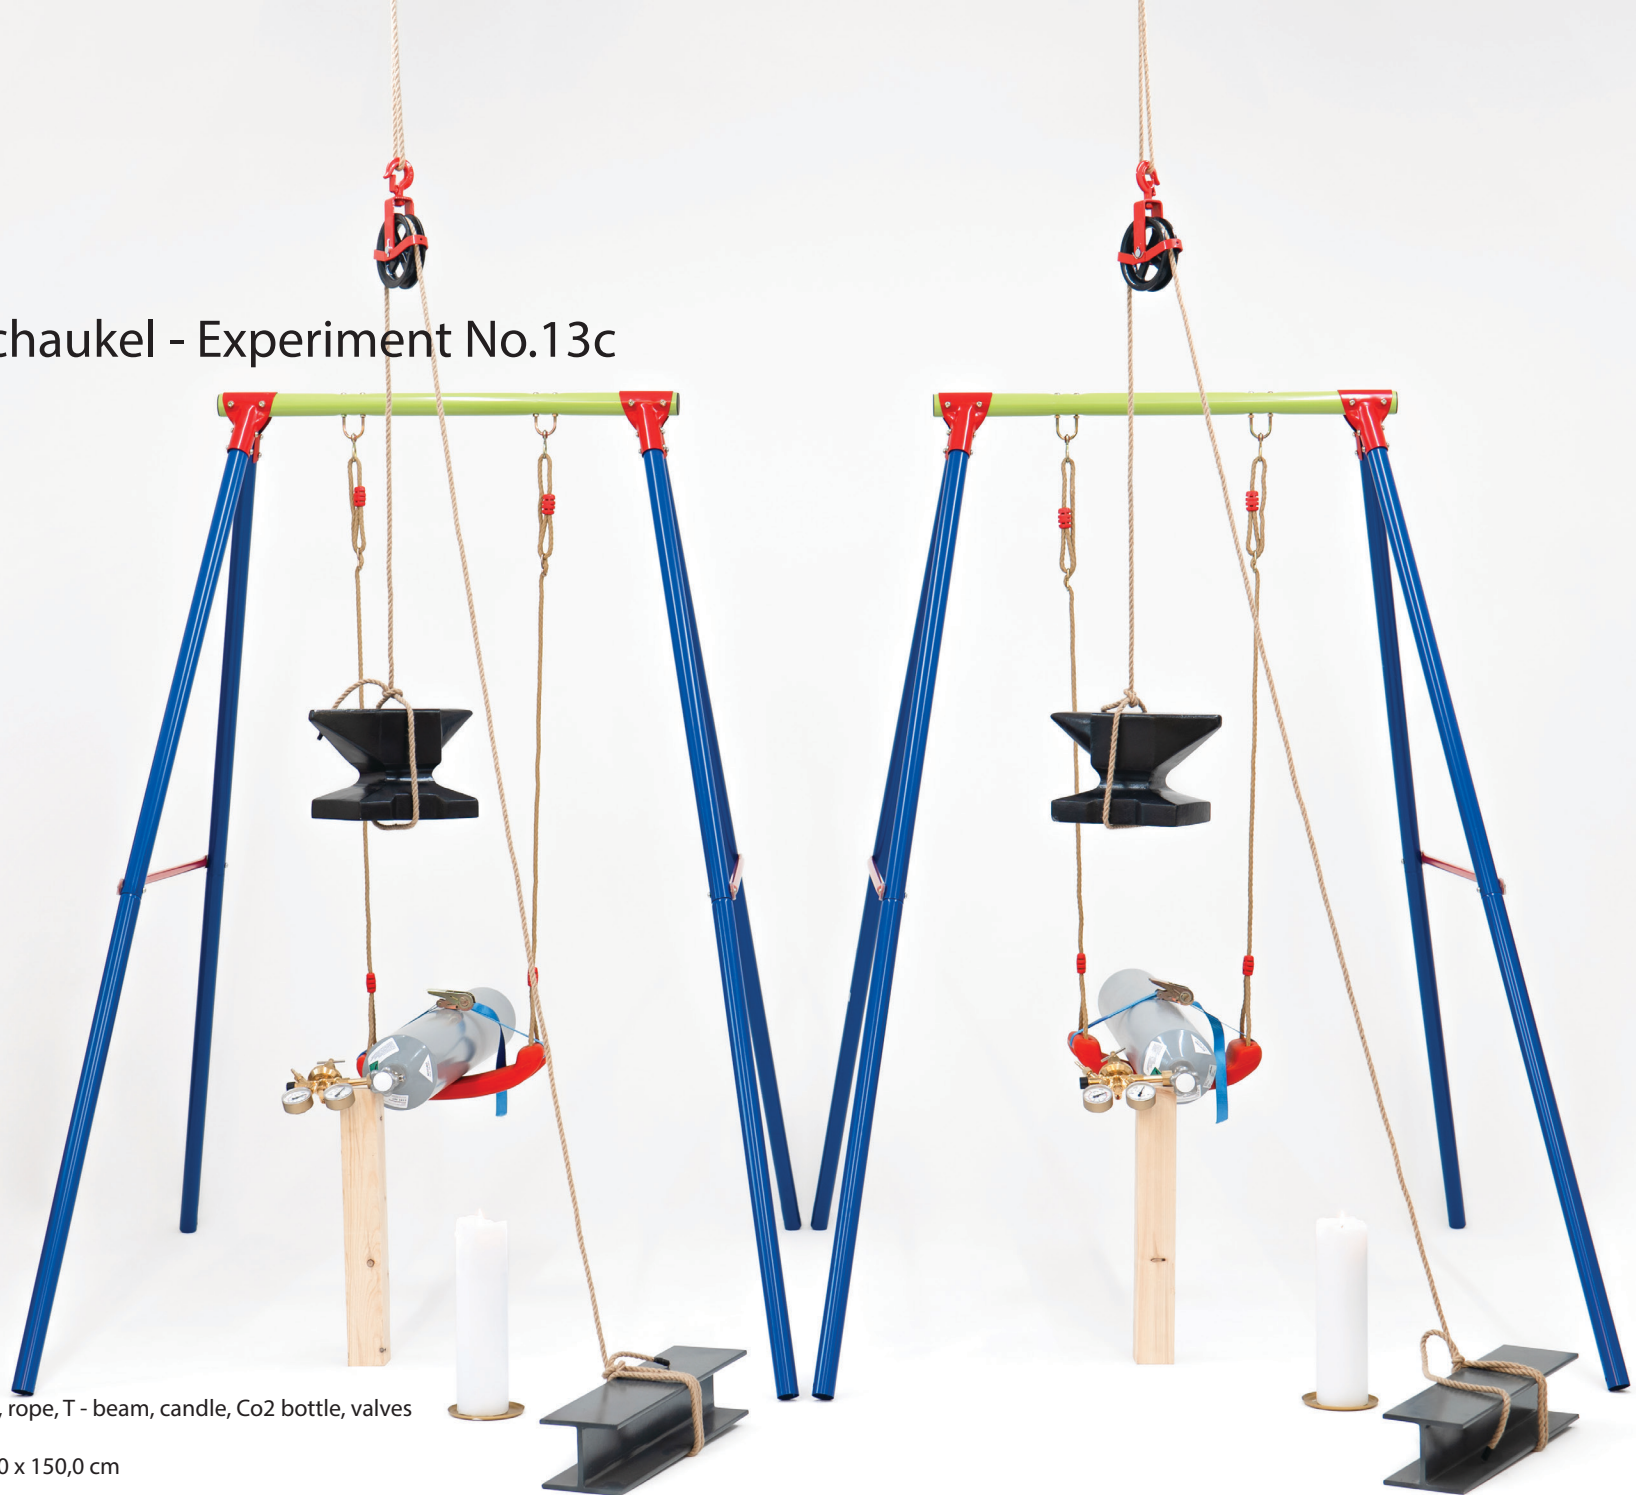

Material:
Gas cylinder, gas hose, gas valves, red ballon
Measures:
250,0 x 80,0 x 200,0 cm
Year:
2021

Die Leiter - Experiment No.01c

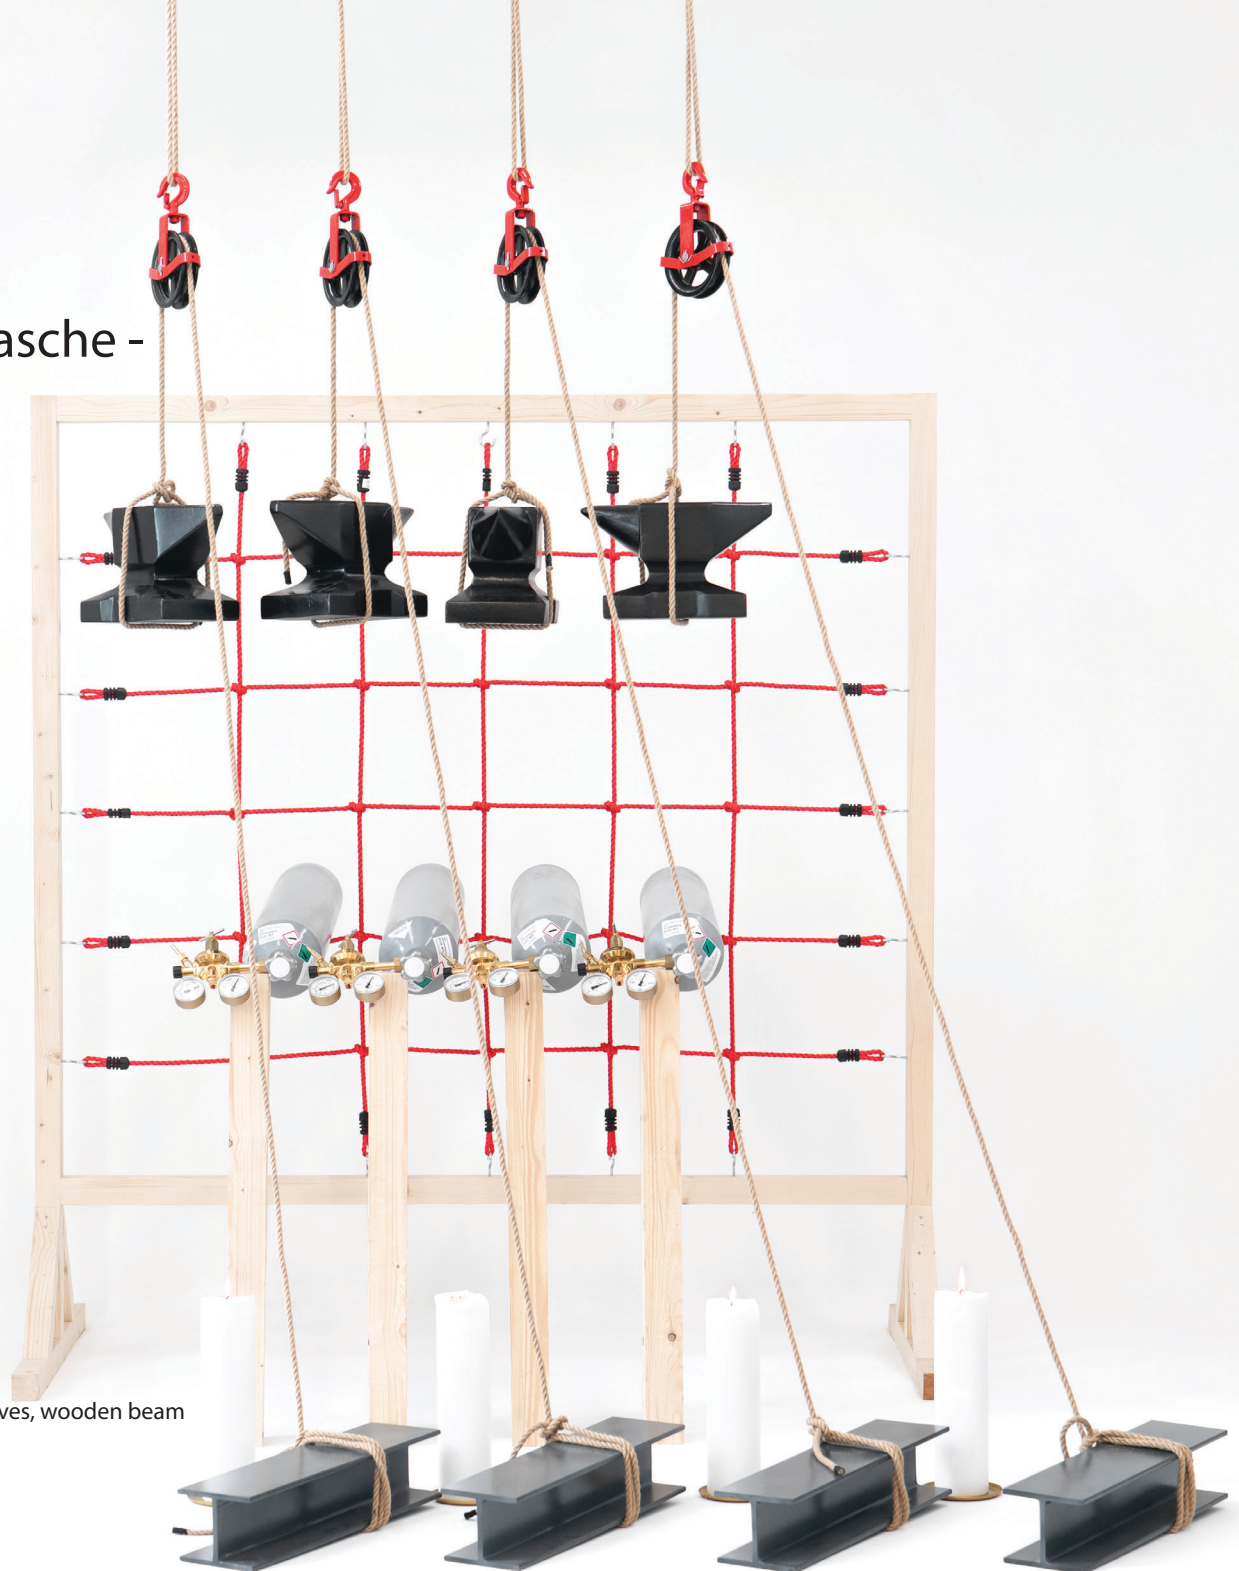

Material:
Gas cylinder, gas hose, gas valves, ballon
Measures:
250,0 x 80,0 x 200,0 cm
Year:
2021

Die Schaukel - Experiment No.13c

Material:
Swing, anvil, rope, T - beam, candle, Co2 bottle, valves
Measures:
200,0 x 200,0 x 150,0 cm
Year:
2022

Das Kletternetz und die Flasche - Experiment No.74a

Material:
Climbing net, anvil, rope, T - beam, candle, Co2 bottle, valves, wooden beam
Measures:
250,0 x 200,0 x 200,0 cm
Year:
2022

Das Wippenkarussell - Experiment No.70c

Material:
Round seesaw, anvil, rope, T-beam, candle, Co2 bottle, valves, wooden beam
Measures:
250,0 x 250,0 x 250,0 cm
Year:
2022

Unfolded

Material:
Mixed media
Measures:
1750,0 x 140,0 x 290,0 cm
Year:
2020

Permeable Systems

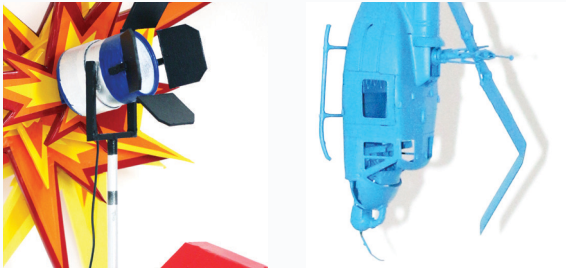

Material:
Mixed media
Measures:
350,0 x 500,0 x 420,0 cm
Year:
2022

Microscopie P. 9595

Material:
Mixed media,
3840 x 2160, 3:25 min., 2022, <https://vimeo.com/832142645>
Measures:
600,0 x 500,0 x 900,0 cm
Year:
2022

Ikarus 2000

Set-up and Execution:

A 24 m high working platform is set up in a room. The crank arm of the lifting platform is extended until below the ceiling of the room. In the safety cage of the lifting platform is a switched-on 18 KW Fresnel Daylight floodlight, which generates a lot of heat. On the floor of the room are nine remote controlled model helicopters. The rotor blades of the helicopters are made of wax. Through use of a remote control device, the model helicopters are flown close to the floodlights.

Supposition:

When the model helicopters fly too close to the headlight, the wax rotor blades melt and they plummet to the ground.

Material:

Mixed media

Measures:

50,0 x 50,0 x 65,0 cm

Year:

2019

Come on baby let's take a ride

Set-up and Execution:

A carousel with eight seats is set up in a room. There is a scuba tank placed on each seat, lashed with a truck safety strap. The scuba tanks are filled with 300 bars of compressed air. A pressure gauge has been screwed onto the tanks. Each pressure gauge rests on a 60 cm high block of squared timber, which has been placed next to the seat. Eight candles are positioned on the floor around the carousel. A hemp cord, fastened to the ground with a hook, is set up in front of each candle. The cord is guided 40 cm above the candles to a hook on the ceiling, and then down to one meter above the manometers. Hanging from the end of each hemp cord is an anvil, which is aligned exactly above the manometer. The candles are ignited simultaneously. The candles are ignited simultaneously.

Supposition:

After an indefinite period of time, a hemp cord is burned through and an anvil falls onto a manometer. The manometer breaks off and the bottle's contents escape suddenly. Some seats tear off, flying through the room. Maybe the carousel starts to move.

Mixed media

Measures:

64,0 x 50,0 x 50,0 cm

Year:

2019

8 x 8 Möbelhunte

Material:
64 transport dollies, 64 rocket engines, 544 m ignitor cord, 64 cable ties, isolation tape
Measures:
790,0 x 550,0 x 390,0 cm
Year:
2019

8 x 8 Möbelhunte

Material:
64 transport dollies, 64 rocket engines, 544 m ignitor cord, 64 cable ties, isolation tape

Measures:
790,0 x 550,0 x 390,0 cm

Year:
2019

2 Seile und 4 Motoren

Material:
1 transport dolly, 4 rocket engines, 4 m ignitor cord, 4 cable ties, isolation tape, 10 m hemprope
Measures:
150,0 290,0 x 25,0 cm
Year:
2019

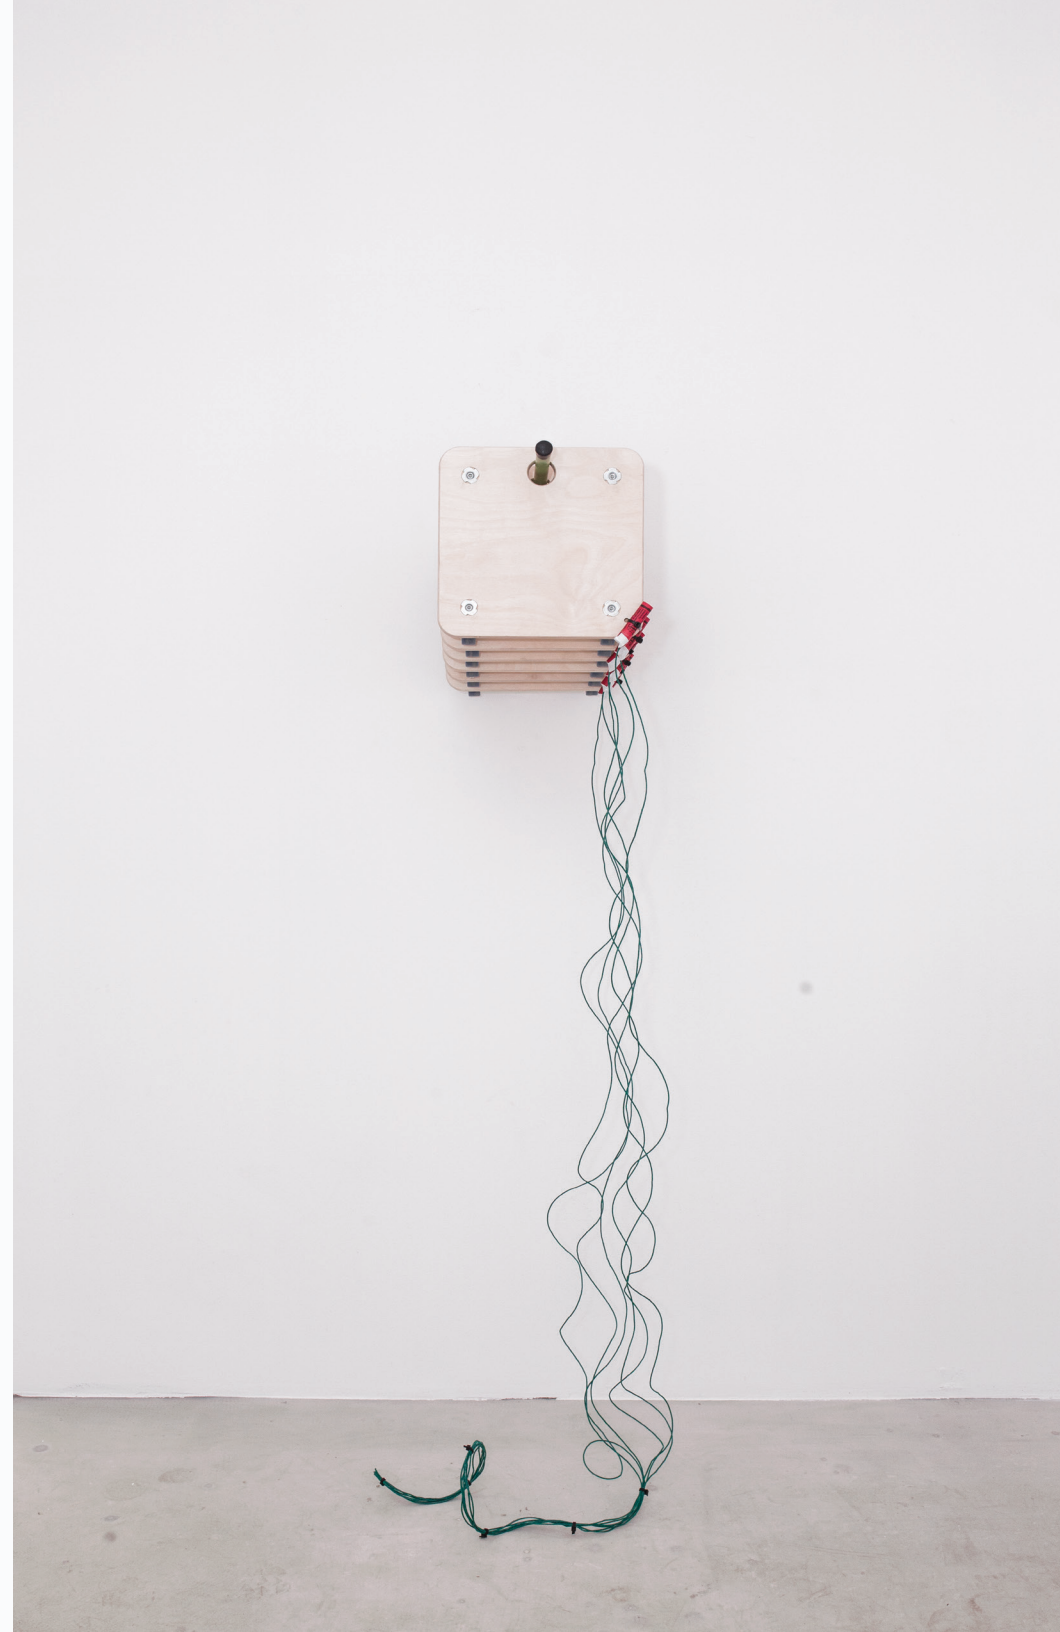

Aufhängung für 6

Material:
6 transport dollies, 6 rocket engines, 15 m ignitor cord, 6 cable ties, isolation tape

Measures:
175,0 x 65,0 x 35,0 cm

Year:
2019

Autopoiesis - unit unbounded #22

Material:
mixed media, 3 Channel Video, 3840 x 2160,
Measures:
1000,0 x 1200,0 x 1600,0 cm
Year:
2022
